Instructor	Text Responses
	<p>Question: Describe your classmates/peers expectations for you to contribute. Please include specifics. TEF domains - Student Motivation</p> <p>I am a tryhard with previous experience! I think that they expect me to do a lot since I run ahead when I can, especially during special techniques when I was working online and was several days ahead of the class.</p> <p>My classmates expect for me to be on time and prepared as we go through each lesson/demo/section together.</p> <p>I felt pushed to be advanced and to be ahead with the other advanced students and it was a blast</p> <p>All work is individual and thus peer contribution does not have many expectations, but coming to class prepared does improve the experience for the overall class.</p> <p>My classmates expect me to go along as we go in helping them if they have a question and be cooperative. This could be something simple as helping them find a fabric or cutting out pieces for everyone.</p> <p>Working on projects together, helping each other with instructions if we don't understand,</p>
	<p>Question: Describe the workload. Please give specific examples. TEF domains - Student Motivation, Feedback and Assessment</p> <p>The workload is reasonable for me as an experienced seamstress, and even more so since Erin gives me extra work to keep me busy!! Woo hoo! I only became overwhelmed with the sloper assignment because of the deadlines</p> <p>Since it is a Costume Construction class, a lot of my homework or work wed need to catch up on needs a sewing machine. Not all of work does but its a bit hard if you dont have a sewing machine at home, good part is that we can come in when we need to finish some work.</p> <p>There were more advanced projects for us. The beginning was way easy until skillsets were established. Then it turned much more complex</p> <p>This class has been challenging due to covid. It is doable, but this course has been a big time sink. Most of this is due to my specific situation. If things were normal I would say we have a low amount of work.</p> <p>Workload is intense and relies on students being able to work outside of class, which is exceptionally difficult during a Corona semester.</p> <p>The workload is doable but I'm pretty slow in completing assignments as I take my time to understand while finishing it up.</p> <p>Working on different sewing assignments, learning how to do finishers and fasteners, creating PJ pants</p>
	<p>Question: If you have any other comments about the learning environment or course, please provide them here</p> <p>The other students are not advanced sewers so I run straight ahead of them given the chance. I don't think theres any way to remedy this since this is a prereq class and not only for experienced sewers</p> <p>I love this class. It was even more fun working from home in a comfortable environment. It wasnt difficult to do.</p> <p>I have loved this course end genuinely feel more confident in my sewing and crafting abilities.</p>
	<p>Question: Describe the instructors' expectations. Please include specifics.</p> <p>Carignan Erin expects me to do everything and beyond! She gives me plenty of challenges that I can actually do which is great since i could breeze through the class otherwise.</p> <p>Carignan To learn basic stitching things for building garments and how to use patterns and how to build clothes</p> <p>Carignan I believe the expectations are high but not unreasonable.</p> <p>Carignan Very lenient with late work, and grades generally were completion rather than nitty gritty (which is ideal for a class where everyone is at a different skill set and trying things for the first time).</p> <p>Carignan Expected work to be down neatly and nicely</p>
	<p>Question: How could the amount of feedback be improved? What might that look like? Please provide details. tip: it may help to put the amount of feedback in context with how much work you submitted to get that feedback.</p> <p>Carignan I haven't checked back much for feedback but I get it instantly when I am in class over zoom</p>

Carignan	It would be helpful to have feedback a little more regularly while doing things instead of after
Carignan	Grading could have been faster, but feedback was consistently specific and useful.
Carignan	Constructive criticism on the parts I didn't do well on (stitches and or how well something is sewn) and positive feedback on good parts
	Question: If you have any other comments about the Instructor, please provide them here
Carignan	Erin is awesome and tailors her class to the skill level and needs of every student!
Carignan	Love erins classes so much. Ill take as many as i can.
Carignan	Feedback has been inconsistent due to when I submit work. Not the fault of the instructor!
Carignan	Excellent course - I have had so much fun :)
	Question: Please explain why you chose Clarity of expectations and grading and give specific details about how changing them could improve your experience of the learning environment.
	COVID definitely made this class harder and there was a lot more to work around
	Its hard to wait for grades and sometimes things get a little jumbled on canvas.
	Canvas grading had a lot of technical issues in the beginning which made feedback very hard, but improved over the course. In general grading could have been faster, but feedback was always specific and useful.
	Question: Please explain why you chose Timing of Feedback and give specific details about how changing them could improve your experience of the learning environment.
	It can take a good hard minute to get feedback back, especially when canvas glitches out
	Sometimes the feedback would come back a little late
	Question: Please explain why you chose the feature Inclusive environment and give specific details about why you feel they are strengths.
	When you have an inclusive environment it makes everyone feel like theyre a part of a community and are able to focus more on the task at hand .
	Every skill is welcome and accommodated
	Really liked how we all got to know each other as it was an in person class, as well as everyone being okay with making mistakes
	Question: Please explain why you chose the feature Timing of Feedback and give specific details about why you feel they are strengths.
	Erin is really good at giving great feedback on where we may have messed up or ways we could do something more efficiently. Were able to learn from our mistakes and make changes with Erin.
	Question: Please explain why you chose the feature Challenge of the course and give specific details about why you feel they are strengths.
	In order to grow, you must be a little bit uncomfortable and challenged. For someone who hasnt sewn before this class was a great challenge that helped me to learn and be more engaged with what we're doing.
	There were lots of levels of work available for our different skills
	Liked how it allowed me to try to get my sewing skills to a higher level as well as retouching on the basics
	Question: Please explain why you chose the feature Accessibility and usefulness of course materials and give specific details about why you feel they are strengths.
	We have all of the materials we need within class as well as was provided with materials to keep and take home.
	The videos need more editing and with more time i think they wouldve been even better. They were way helpful. They hust need more editing and adjustments. Like a proofread
	Course feels very specific and skills are applicable to costume construction for theatre and as general life skills.
	Sewing needs a lot of utilities and those were really well provided in the costume shop
	Question: Please explain why you chose the feature Instructor Communication and give specific details about why you feel they are strengths.

	Communication is key, Erin has so much knowledge within this course so shes able to help us where we needed.
	Erin is really good at explaining and adjusting explainayions and explaining in different ways
	Communication improved throughout the semester and using a mixture of Canvas and email helped everyone stay on-track. Erin was also helpful via email and always approachable.
	Was able to ask Erin any questions whenever I was confused
	Question: Please explain why you chose the feature Support from Instructor and give specific details about why you feel they are strengths.
	Having support from our teacher is great because it helps us feel confident in what were learning.
	Very flexible and kind. Erin is such a warm person.
	Erin was able to give really good feedback and explanation on difficult steps
	Question: You chose to sign this evaluation, Please type your name in the box below.
	Miranda
	Eliot Marshall
	Question: How could the late timing of the feedback be improved? What might that look like? Please be specific in your comments.
Carignan	Im not sure.
