Describe your classmates/peers expectations for you to contribute. Please include specifics. TEF domains - Student Motivation

Comparing and seeing everyone's test pieces was really necessary to the process

Describe the workload. Please give specific examples. TEF domains - Student Motivation, Feedback and Assessment

It was a lot! But in a good way. You essentially have to do most, if not all, of the work in the classroom though, but that is fair. I don't want to dye my kitchen sink.

If you have any other comments about the learning environment or course, please provide them here

I loved this class! The surprise of how things will look, the testing and trying, it was so fun! I would have liked to try the "color matching" from the beginning of class again at the end with something a little harder to match, or trying to match a process. A CS-Dye style project lol

How could the timing of the feedback be improved? What might that look like? Please be specific in your comments. TEF Domains - Feedback and Assessment

Fine as is

Describe the instructors expectations. Please include specifics. TEF Domains - Curriculum/Curricular Alignment

We have to learn the kinds of due, when to use them, ways to remove the color, best practices with PPE, and so much more. They're a lot to this class, as there should be.

How could the amount of feedback be improved? What might that look like? Please provide details. tip: it may help to put the amount of feedback in context with how much work you submitted to get that feedback. TEF Domains - Feedback and Assessment

Fine as is

If you have any other comments about the Instructor, please provide them here

Loved the class a lot. So creative and new. Only wish we could all fit in the room better without it getting overwhelming.
