Text Responses

Describe your classmates/peers expectations for you to contribute. Please include specifics. TEF domains - Student Motivation

The projects in the class are very individual, but the students are very encouraging and always want me to succeed. It's always a collaboration, even when not in group projects.

Describe the workload. Please give specific examples. TEF domains - Student Motivation, Feedback and Assessment

I've found that most of our projects have been given just enough time but were always cutting it close. The only exception has been our final project, where it feels like we need a few more weeks than what we've been given.

If you have any other comments about the learning environment or course, please provide them here

The class has so many students that it feels like we are rationing support from the instructor and supplies for projects, which makes challenging projects even more challenging.
